PROFESSIONAL SUMMARY

Full-stack web developer with hands-on experience in JavaScript, React, Node.js, Express.js, and MongoDB. Builds responsive, component-based applications with a focus on clean UI and practical functionality. Brings a disciplined, team-oriented work ethic shaped by U.S. Marine Corps service and a decade of high-stakes leadership in professional environments.

EDUCATION

University of South Florida

B.S. Information Science - ISE.

Spring 2028

Hillsborough Community College

A.S. Web Development. High Honors.

2025

ITT Technical Institute

A.S. Multimedia Design.

Pittsburgh, PA

2007

EXPERIENCE

Executive Sous Chef

2014 – 2021

Sienna Mercato

Pittsburgh, PA

- Directed daily operations across prep, service, scheduling, and food safety compliance at Emporio, one of the highest-grossing restaurants in Pittsburgh
- Supervised, trained, and scheduled staff while upholding consistent production standards in a high-volume environment
- Designed systems to streamline prep workflows and reduce waste
- Stepped into the Head Chef role as needed, maintaining quality and continuity of service

PROJECTS

Hacker Escape Room Game

- Built a 3D digital escape room using Blender and Articulate Storyline
- Designed custom assets and puzzle logic for a fully interactive user experience

Portfolio Website

- Developed a responsive React and Tailwind CSS portfolio site featuring a blog, project gallery, and API-connected widgets
- Implemented an admin panel for dynamic content management; project examples and source code available on GitHub
